

CORPORATE IDENTITY

WHO WE ARE

Central Payments is a US-based payments company built by bankers to serve the unique needs of today's financial services industry.

OUR COMPETITIVE ADVANTAGE

1. **Experience:** Collective 80 years industry experience in the C-Suite
2. **Technology:** Our proprietary payments marketplace middleware, OpenCP, provides inclusive, all-in-one connections to the payments ecosystem.
3. **Speed and Stability:** Solutioning to market launch in less than 120 days; balanced with innovation, backed by Castle Creek Capital, risk and compliance stability is at the center of Central Payments' solutions.
4. **Full Program Management:** Over 100 functions to support payment solutions, including risk, compliance, fraud monitoring, oversight. Years of passing regulatory exams. Check.
5. **Data:** Analytics-driven business intelligence for portfolio and program decisioning

WHAT WE DO

We simplify the way our customers access the payments ecosystem. Solution, build, and support payment products through our proprietary API marketplace, OpenCP; giving partners a single-source access point to the entire payments landscape. One contract. One price. One partnership.
